- Uses Flash Memory – No Hard Drive
- Windows Embedded Operating System
- New 'Hot' Keys – Easier access to common functions
- Wipe Clean Polyester Keypad
- Integral TFT Monitor
- Ultra fast and accurate scale
- Lighter, smaller, easier to service

Designed for Print Shops, Ink  
Kitchen and Ink Room  
Applications

INTEGRA 2 is a complete Ink Management and Colour Control work station linked to the Vale-Tech Ink Manager™ Windows based software. This compact, integrated computerised balance incorporates all of the benefits of a high specification PC and a high accuracy scale in one package. Its small footprint occupies the minimum of bench space. Built to operate in hostile conditions, the weigh pan is manufactured in a high quality stainless steel with the case protected by a hard wearing, polyester powder coat incorporating a solvent safe, polyester based membrane keyboard.

Integra 2 combines accurate weigh down with a comprehensive Formula database and full Stock Control features. Integra 2 ensures colours are mixed quickly, accurately and consistently every time; saving time, ink and improving quality.

## Features

- Blend Spot Colours in Just Minutes
- Pantone database pre-loaded
- Reduces Mess
- Highly Accurate to +/-0.1g (0.0002lb)
- Perfect for Small to Medium Sized Print Shops
- Reduces Ink Consumption by up to 50%
- Payback in as Little as 12 Months!

## Benefits

- ✓ Report job usage
- ✓ Allocate materials to press, stock or WIP
- ✓ Usage and stock reports
- ✓ Material Estimation by job
- ✓ Prepare designs and jobs for batch mixing
- ✓ Traceability by batch number
